PROFESSIONAL EXPERIENCE

Packaged Application Development Senior Analyst

Accenture | Chennai | Feb 2026 – Present

- Support backend development and production support for a Finance & Wealth Management client using Java, REST APIs, PostgreSQL, and Microsoft Azure
- Design end-to-end API flows and integration components for ESPP enterprise system connectivity
- Drive incident resolution, root cause analysis, and continuous improvement within Agile sprints
- Coordinate with onshore and offshore teams through daily standups and weekly sync meetings

Software Engineer

RNTBCI (Renault Nissan) | Chennai | Jul 2022 – Jan 2026

- Built full stack applications (Java, Spring Boot, React, MySQL, MongoDB) for manufacturing and plant operations workflows
- Designed REST APIs and React dashboards with Chart.js for real-time KPI monitoring across plant divisions
- Selected as Onsite Coordinator at Nissan Motor Limited, Japan (Jun–Sep 2024); achieved CSI score of 4.6/5
- Nominated for Innovation Award for building an automation tool that reduced manual documentation effort

Developer Intern

Huawei Technologies | Mar 2022 – Jul 2022

- Developed features for a Smart Cooking mobile app using Java, Kotlin, and HMS SDK

EDUCATION

B.E. Electronics & Communication Engineering | Anna University, Trichy | 2018–2022 | CGPA: 8.4/10
Full Stack Development with Generative AI — NIIT (Completed)

KEY ACHIEVEMENTS

- Innovation Award Nominee** — Developed an automated cross-reference update system using VBA macros for AutoCAD, reducing manual effort and improving documentation accuracy in electrical schematic workflows
- Customer Satisfaction Index: 4.6/5** — Recognized by Nissan client team for clear communication, reliable problem-solving, and consistent delivery under deadline pressure during Japan onsite engagement
- Onsite Coordinator, Nissan Motor Limited, Japan (Jun–Sep 2024)** — Served as the primary technical and communication bridge, leading real-time issue resolution across India–Japan teams
